Sententiousness Facetious.
A minister who lives in a small town is noted for his sententiousness both in and out of the pulpit. As he was coming down the street one day a man accosted him with: "Sir, can you tell me how to find the sheriff's office?" "Yes, sir," was the instant reply. "Every time you earn five dollars spend ten." And he walked on, leaving the astonished man gazing after him.—Harper's Magazine.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle
of Danderine Right Now—Also
Stops Itching Scalp.

Thin, brittle, colorless and scaly hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which, if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—say time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any store, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. FINAL AGREEMENT ON MILITARY BILL

HOUSE COMMITTEE UNANIMOUS
ON PROVISIONS OF PREPAR-
EDNESS MEASURE.

CALLS FOR 700,000 MEN

Regular Army Will Be 170,000 Men.
Industrial Reserves To Be Organ-
ized—Measure Now Goes To
House Floor.

Washington.—Final decision has been reached by the house military committee upon its bill for the increase of the army, and it will be reported unanimously to the house at once. In round figures the measure would authorize the formation of an army composed of regulars, national guardsmen and federal volunteers with a total peace strength of approximately 700,000 men.

It provides for a maximum strength of 170,000 fighting troops for the regular army, for a minimum of 425,000 for the national guard within five years and for organization of federal volunteers through an extension of the summer training camp idea. It is estimated that 100,000 men can be enrolled in the latter force.

The bill retains provision for organization of industrial and technical reserves behind the fighting lines and authorizes the creation of a board of officers to control an industrial mobilization in time of war or imminence of war. It also provides that manufacturers of war materials must give immediate preference to government orders in war time, or when there is danger of war, under heavy penalty for failure to do so.

While the minimum strength of the regular army remained at 140,000, a change was made before the final vote to fix the maximum of fighting troops at 170,000, bringing the total authorized strength of the regular force, including the hospital corps and other non-combatant troops, to 190,000.

While all members of the committee will sign the bill, they do so under the reservation that they may support upon the floor of the house any amendment they desire.

SAY GERMAN RAIDER TAKEN

Wireless Message Announces Capture
By British Cruiser—Not Known
Whether Moewe or Roon.

Buenos Aires.—Press dispatches from Montevideo say that steamer arriving from Europe intercepted near the coast of Brazil a wireless message stating that British cruisers had captured the German auxiliary cruiser Moewe. The Moewe, it is said, was taken by British cruisers to the island of Trinidad.

The American steamer Santa Barbara has arrived at Montevideo, her captain making the announcement that a French cruiser which put out from Dakar, on the west coast of Africa, encountered a German raider (name not given) and opened fire on her. Under cover of darkness the German ship got away. She was, however, damaged on her upper works by the French fire.

There is some doubt, however, as to the identity of the German vessel captured. Another version of the account is that the vessel is the German cruiser Roon.

Crisis in Spain.
Madrid, via Paris.—Strikes and disturbances have occurred in most of the provinces of Spain as a result of the increased cost of food. A general strike was proclaimed in Valencia, where serious rioting took place, one person being killed and many injured. There is a general demand that the government take steps to lower the prices of food and to start public works in order to provide labor for the unemployed and thereby avoid a serious crisis.

Delay Not Understood.

Berlin.—The German memorandum on armed merchantmen addressed to the United States was dispatched via London in the embassy pouch leaving Berlin Feb. 14. Presumably it was forwarded to the United States on the steamer California Feb. 19. It is understood that the photographs of copies of the captured British instructions to armed merchant ships were sent to Count von Bernstorff several days before the issuance of the memorandum.

20 Killed In Avalanche.

London.—A dispatch to the Central News from Amsterdam says that 20 persons have been killed and many injured by avalanches in the Southern Tyrol.

New Haven, Conn.—The failure of W. R. Curtis, engineer, to observe the signals set against him was responsible for the running of his train into the rear of the Connecticut River Special on the New Haven road at Milford on Feb. 22, according to the findings of Coroner EM Max. Ten persons lost their lives in the wreck.

Austrians Occupy Durazzo.

PREPAREDNESS BILLS SOON

Congressional Committees Take Up
Final Review of Measures For En-
larging Military Establishment.

Washington.—The campaign for national preparedness will enter on a new phase in congress soon, when in all probability bills providing for increasing the army to an extent never before contemplated in times of peace will be introduced in both the house and the senate.

The military committee has begun its final review of the measure tentatively agreed upon last week and which, it is stated, will be altered only in minor details before it is favorably reported. The final vote probably will be taken before March 4, but it will require several days for Chairman Hay to prepare a report to accompany the bill.

The senate committee has agreed to insert into a general provision for federalization of the national guard in its regular army reorganization measure, leaving the task of putting this legislation in final shape to the joint conference committee, to which the two bills will go. By this action the senate committee made it possible to bring out its bill also next week.

Before the house naval committee Rear Admiral Knight has continued his recommendations that every facility in the country be employed to hasten construction of a fleet equal to those of any two nations except Great Britain.

American policies, such as the Monroe doctrine, Asiatic exclusion, control of the Panama canal and the open door in China, he declared, constitute a great and growing threat of war unless adequate preparation to uphold them is made.

Admiral Knight said he believed it would take two years and a half to make the navy efficient enough to meet the present German fleet with any hope of success. The time limit he set was the minimum required to build nine battle cruisers and eight fast scouts.

GERMAN TROOPS TRAPPED

Brandenburgers Who Captured Fort
Douaumont Are Surrounded—Es-
cape Doubtful.

Paris.—The remnant of the famous Brandenburg corps, flower of the kaiser's armies, which bore the brunt of the assault on Verdun, is trapped in the fort at Douaumont. French forces surround it on all sides.

Guards have been placed about the fort. The French are not wasting their lives in attacking it, but are waiting until hunger compels the kaiser's crack troops to run up the white flag or come out and fight. More than 2,000 of the Brandenburgers are virtually prisoners.

In the attack on the village of Douaumont the fort at that place changed hands four times. Repelled by the Germans, the French rallied and regained the stronghold, only to be routed again. Assaults and counter-assaults might have continued indefinitely had not the Breton corps been called upon. The Bretons charged with irresistible rush through a storm of German shells and put the Brandenburgers to flight.

The pursuit carried the main division of the German corps to the northward beyond the fort. The ferocity and suddenness of the French assault cut off the escape of 2,000 of the Brandenburgers, who were unable to get out of the fort. The French assert that the latter will either be starved into surrender or to make a break for the German lines, which would result in certain annihilation.

A wounded officer told how the German dead lay on the battlefield so thickly that in the faint light of early morning they seemed a new army advancing to the attack. The officer was in the trenches on hill 288 before Vacherauville.

Mined areas played an important part in breaking the great German offensive against Verdun, and they cost many thousand German lives.

SENATE SUPPORTS PRESIDENT WILSON

ADMINISTRATION FORCES WIN IN
DRAMATIC FIGHT ON ARMED
SHIP QUESTION.

KILLS GORE'S RESOLUTION

Akiahoma Senator's Resolution Would
Warn Americans Against Travel
On Armed Vessels—Senate
Fight Is Non-Partisan.

Washington.—Out of a day's developments in President Wilson's fight with congress, crowded to the utmost with elements of the sensational and dramatic, the administration forces in the senate emerged with pledges, or enough votes, to kill once and for all Senator Gore's resolution to warn Americans off armed ships of the European belligerents and demonstrate that congress stands behind the president in his negotiations with Germany.

Action in the senate, it is believed, will be followed promptly by stifling of sentiment in the house against the president's foreign policy.

In one of the greatest non-partisan debates the senate has seen in years, Chairman Stone of the foreign relations committee, declared he was not in accord with the president; Senator Lodge, the ranking Republican, pledged his support to the president's determination to secure to Americans their rights on the high seas, and Senator John Sharp Williams, just from a sick bed, delivered a withering denunciation of the president's opponents.

The senate adjourned until the next day, when the administration leaders plan to bring up the Gore resolution and table it, disposing of it finally as an embarrassment to the president in his conduct of diplomatic negotiations with Germany. They have found that not more than 23 votes can be mustered against them.

In the house, where the president was faced with further delay, the promise of administration victory in the senate gave signs of breaking up the opposition and the leaders now are confident of similar action there.

No attempt was made to minimize the realization of the effect Senator Gore's declaration might have on the foreign situation at this time, and on all sides it was admitted to be probably the most serious turn that has yet been given to the situation.

Behind the curtain of dramatic events which shadowed the actual steps in the president's fight for defeat of the anti-administration resolutions and repudiation of the sentiment spread abroad that a majority of congress is opposed to his foreign policy, the administration supporters took drastic steps to carry out the president's demand for a record vote.

Faced by the possibility of indefinite delay in the house, they transferred the fight to the senate. After having put the senate majority on record, the fight will be carried back to the other side of the capitol.

ULTIMATUM TO PORTUGAL

Germany Demands Immediate Restora-
tion of Vessels Recently Seized by
That Country—May Break.

London.—Germany has sent an ultimatum to Portugal demanding the immediate restoration of the German ships recently seized by that country, according to a dispatch from Madrid to Reuter's Telegram Company.

A Lisbon dispatch on Feb. 2 quoted Premier Costa of Portugal as declaring in the Chamber of Deputies that the government's action in requisitioning vessels had been prompted by the necessities of the nation's economic situation. The premier further declared that he considered it to the best interest of Portugal that the existing treaty with Germany be allowed to lapse and that the Portuguese government was prepared for all eventualities that might arise.

There have been frequent rumors since the outbreak of hostilities that Portugal was about to declare a state of war with the central powers because of her treaty relations with Great Britain, but no such declaration was ever made.

Say Diaz Captured.

New York.—Gen. Felix Diaz has been captured by Zapatistas in Mexico if an unconfirmed report which was circulated among some members of the Mexican colony here is true. His capture means his death at the hands of a firing squad. Diaz characterized the report as "a Carranza press agent story."

U. S. CONTROL FOR HAITI

Treaty Establishing Protectorate Over
Island Republic Is Ratified by
the U. S. Senate.

Washington.—The senate has unanimously ratified the treaty with Haiti under which the United States assumes a protectorate over the turbulent island republic, taking over control of its finances and police, guaranteeing its territorial integrity and undertaking to develop its resources. The treaty already has been approved by the Haitian congress, and its terms virtually are in operation under the eye of a strong American marine expedition.

This treaty was negotiated last year with the D'Artigue government, set up after marines and bluejackets under Rear Admiral Caperton had put down the revolution which overthrew President Vilbrun Guillaume. During the preceding few years Haiti had seen eight presidents deposed, and most of them murdered or exiled. Guillaume was dragged from the French legation and killed. The possibility of European intervention to protect foreign lives and property and insure payment of foreign loans was being discussed when the American forces took charge of affairs on the island.

The principal articles of the convention provide for:

American supervision of finances and the collection of customs.
American supervision of the payment of the public debt, inquiry into the validity of existing debts and regulation of the contracting of future debts.
Policing of the republic by a native constabulary, officers for the present being Americans.

Intervention by the United States if necessary to preserve order and for guaranteeing territorial integrity and independence.

Development of Haitian resources under American auspices.

It is set forth particularly that the United States shall by its good offices aid the Haitian government in proper and efficient development of its agricultural, mineral and commercial resources and in establishment of the finances of the republic on a solid basis.

STRONG FOR THE PRESIDENT

New York Democrats Indorse Wilson
For Second Term—Administration
Policy Is Ratified.

Syracuse, N. Y.—In keynote speech and platform Democrats of New York state have assembled in informal convention, ratified the administration of President Wilson and took steps to bring about his re-election. Harmony marked the convention's deliberations, every proposal being adopted unanimously.

The convention also adopted a resolution commending the re-election of Norman E. Mack of Buffalo as Democratic national committeeman.

The delegates to the national convention, which will comprise New York's big four, were unpledged, but were nominated with the understanding that they are to work for a second term for Mr. Wilson.

The keynote speech, delivered by former Gov. Martin H. Glynn as permanent chairman, aroused much enthusiasm. In addition to commending the action of Mr. Wilson during his administration, it replied directly to the criticisms of the president and his foreign policies made by former Senator Elihu Root at the recent Republican state convention in New York.

At the conclusion of the speech the convention adopted a resolution providing for the distribution by the Democratic state committee of 1,000,000 copies throughout the country.

The platform expressed the faith of New York's Democracy in the president and urged his renomination and re-election. It was adopted enthusiastically amid prolonged cheering. It dealt solely with national and international issues. A futile attempt was made by advocates of woman suffrage to insert in the platform a plank pledging the party to support the movement.

FRENCH LINER SUNK.

Paris War Office Fails to State Cause
of Disaster.

Paris.—The auxiliary French cruiser Provence has been sunk in the Mediterranean here, it was officially announced here. At Malta 296 survivors have been landed. The ministry of marine estimates the number of survivors at 870.

Four hundred survivors were landed at Milo. La Provence sank in the middle of the Mediterranean.

La Provence was one of the largest and finest of the French line vessels. Her gross tonnage was 13,753. She was built at St. Nazaire in 1906, was 602 feet long, 65 feet beam and 38 feet deep. She was requisitioned by the French government at the outbreak of the war.
